Archbold: Criminal Pleading, Evidence and Practice-P. J. Richardson 1995

Pleading, Evidence & Practice in Criminal Cases-John Frederick Archbold 1966

Policing-Carol A. Archbold 2012-10-17 Part of the SAGE Text/Reader Series in Criminology and Criminal Justice, this book provides an overview of the field of policing, including a collection of carefully selected classic and contemporary articles that have previously appeared in leading journals, along with original material in a mini-chapter format that contextualizes the concepts. It provides strong coverage on the basics of policing plus current and relevant topics such as female, gay and lesbian, and racial/ethnic minorities officers, policing issues in both rural and urban settings, police misconduct, accountability and ethics, and more.

Commentaries on the Laws of England-William Blackstone 1836

Evidence of Bad Character-J R Spencer 2016-09-01 This is the third edition of J R Spencer's now well established book which seeks to explain this area of law for the benefit of judges, criminal practitioners and academics teaching the law of evidence. In the past, the rule excluding evidence of the defendant's general bad character and disposition to commit the offence was sometimes described as one of the

most hallowed rules of evidence; Lord Sankey, in *Maxwell v DPP*, referred to it as '...one of the most deeply rooted and jealously guarded principles of our criminal law.' In reality it was not particularly ancient, and as the years went by it was increasingly attacked. On technical grounds the body of law surrounding it was criticised as over-complicated and inconsistent, and more radical critics condemned it as unduly favourable to the guilty. In response to this, the law was completely recast in Part 11 of the Criminal Justice Act 2003. This book, now again updated to take account of further legislative changes, case-law and academic writing, offers a thorough analysis of the bad character provisions of the Criminal Justice Act 2003 in the light of the way in which they have been interpreted by the courts.

A Treatise of the Pleas of the Crown-William Hawkins 1716

The New World of Police Accountability-Samuel E. Walker 2013-12-09 The subject of police accountability includes some of the most important developments in American policing: the control of officer-involved shootings and use of force; citizen complaints and the best procedures for handling them; federal 'pattern or practice' litigation against police departments; allegations of race discrimination; early intervention systems to monitor officer behavior; and police self-monitoring efforts. The Second Edition of *The New World of Police Accountability* covers these subjects and more with a sharp and critical perspective. It provides readers with a comprehensive description of the most recent developments and an analysis of what works, what reforms are promising, and what has proven unsuccessful. The book offers detailed coverage of critical incident reporting;

Commentary on the Law of the International Criminal Court-Mark Klamberg 2017-04-29

Archbold- 2015-11-18

The Right to Reparation in International Law for Victims of Armed Conflict-Christine Evans 2012-06-28 Christine Evans assesses the right to reparation for victims of armed conflict in international law and in national practice.

An Introduction to the Study of the Law of the Constitution-A.V. Dicey 1985-09-30 A starting point for the study of the English Constitution and comparative constitutional law, The Law of the Constitution elucidates the guiding principles of the modern constitution of England: the legislative sovereignty of Parliament, the rule of law, and the binding force of unwritten conventions.

The Principles of Criminal Pleading-Franklin Fiske Heard 1879

Resource Book on the Use of Force and Firearms in Law Enforcement-United Nations Office on Drugs and Crime 2018-01-17 This resource book explores international law sources relevant to the use of force and the general responsibility of law enforcement authorities for the use of force. It discusses a number of instruments of force, including firearms, and the conditions under which these should be used. It further examines the possible use of force in a number of specific policing situations. Finally, it also outlines good practices for accountability in the use of force and firearms by law enforcement officials.

The Barrister's World--and the Nature of Law-John Morison 1992 An examination of the role of the advocate in the workings of the UK legal process. The authors argue that, contrary to the orthodox view that law is about close analysis

of text, law is more to do with persuasion, rhetoric and negotiation.

The Criminal Law of Sierra Leone-Bankole Thompson 1999 The Criminal Law of Sierra Leone documents the substantive criminal law as it has been applied, expounded, and developed since the introduction of English Common Law, using relevant case-law authorities and illustrations. The author takes a broad approach to the study of the country's criminal law, using cases to highlight and elucidate the principles and rules developed by the courts and also to demonstrate the real world impact of judicial decisions. This study provides an analytical understanding of the country's criminal law principles and doctrines, and the opportunity to critique court decisions from their own perspectives of fairness and justice. The author begins by introducing the courts that exercise criminal jurisdiction in Sierra Leone, an analysis of the specific features of criminal law, and an exposition of its underlying principles, theories, and doctrines as a social control mechanism. He then discusses the basic elements of crime and describes how crimes are classified. Finally, he presents the defenses to criminal liability available under the law and articulates the case for major reforms of the country's criminal law.

The William Blackstone Collection in the Yale Law Library-Yale Law Library. William Blackstone Collection 1938

Sitting in Judgment-Penny Darbyshire 2011-09-30 The public image of judges has been stuck in a time warp; they are invariably depicted in the media - and derided in public bars up and down the country - as 'privately educated Oxbridge types', usually 'out-of-touch', and more often than not as 'old men'. These and other stereotypes - the judge as a pervert, the judge as a right-wing monster - have dogged the judiciary long since any of them ceased to have any basis in fact. Indeed the limited research that was permitted in the 1960s and 1970s tended to reinforce several of these stereotypes. Moreover, occasional high profile incidents in the courts, elaborated with the help of satirists such as 'Private Eye' and 'Monty Python', have ensured that the 'old white Tory judge' caricature not only survives but has come to be viewed as incontestable. Since the late 1980s the judiciary

has changed, largely as a result of the introduction of training and new and more transparent methods of recruitment and appointment. But how much has it changed, and what are the courts like after decades of judicial reform? Given unprecedented access to the whole range of courts - from magistrates' courts to the Supreme Court - Penny Darbyshire spent seven years researching the judges, accompanying them in their daily work, listening to their conversations, observing their handling of cases and the people who come before them, and asking them frank and searching questions about their lives, careers and ambitions. What emerges is without doubt the most revealing and compelling picture of the modern judiciary in England and Wales ever seen. From it we learn that not only do the old stereotypes not hold, but that modern 'baby boomer' judges are more representative of the people they serve and that the reforms are working. But this new book also gives an unvarnished glimpse of the modern courtroom which shows a legal system under stress, lacking resources but facing an ever-increasing caseload. This book will be essential reading for anyone wishing to know about the experience of modern judging, the education, training and professional lives of judges, and the current state of the courts and judiciary in England and Wales.

Ashes and Sparks-Stephen Sedley 2011-02-24 As a practising barrister, the Rt. Hon. Lord Justice Sedley wrote widely on legal and non-legal matters, and continued to do so after becoming a judge in 1992. This anthology contains classic articles, previously unpublished essays and lecture transcripts. To each, he has added reflections on what has transpired since or an explanation of the British legal and political context that originally prompted it. Covering the history, engineering and architecture of the justice system, their common theme relates to the author's experiences as a barrister and judge, most notably in relation to the constitutional changes which have emerged in the last twenty years in the United Kingdom.

Criminal liability in regulatory contexts-Great Britain: Law Commission 2010-08-25 In this consultation paper, the Law Commission sets out the case for reducing the scope for criminal law to be used in regulated fields such as farming, food safety, banking and retail sales. Criminal sanctions should only be used to tackle serious wrongdoing and it is out of proportion for regulators to rely wholly on the criminal law to punish and deter activities that are merely 'risky', unless the risk involved is a serious one. There has been a steep increase in the number of

criminal offences created since the late 1980s to penalise risk-taking. The areas regulated cover a wide range of risk-posing activities, and involve millions of people and thousands of businesses. By turning to civil penalties for minor breaches, regulators could reduce costs to themselves and the criminal justice system by £11 million a year. In some cases, criminal prosecution can cost almost twice what the courts obtain in fines. The paper proposes that: (i) regulatory authorities should make more use of cost-effective, efficient and fairer civil measures to govern standards of behaviour; (ii) a set of common principles should be established to help agencies consider when and how to use the criminal law to tackle serious wrongdoing, and (iii) existing low-level criminal offences should be repealed where civil penalties could be as effective. Where criminal offences are created in regulatory contexts, they should require proof of fault elements such as intention, knowledge, or a failure to take steps to avoid harm being done or serious risks posed.

Murder, Manslaughter and Infanticide-Great Britain. Law Commission 2006-01-01 A Law Commission consultation paper 'A new homicide act for England and Wales?' was published as LCCP 177 (ISBN 0117302643) in April 2006

Exercising Discretion-Lorraine Gelsthorpe 2012-12-06 The exercise of discretion in the criminal justice system and related agencies often plays a key part in decisions which are made, but definitions of discretion are not clear, and despite widespread recognition of its importance there is much controversy on its nature and legitimacy. This book seeks to explore the importance of discretion to an understanding of the nature of the 'making of justice' in theory and practice, taking as its starting point the wide discretionary powers wielded by many of the key players in the criminal justice and related systems. It focuses on the core elements and contexts of discretion, looking at the power, ability, authority and duties of individuals, officials and organisations to decide, select or interpret vague standards, requirements or statutory uncertainties.

Simester and Sullivan's Criminal Law-A P Simester 2019-08-22 This is the new edition of the leading textbook on criminal law by Professors Simester and Sullivan, now co-written

with Professors Spencer, Stark and Virgo. Simester and Sullivan's Criminal Law is an outstanding account of modern English criminal law, combining detailed exposition and analysis of the law with a careful exploration of its theoretical underpinnings. Primarily, it is written for undergraduate students of criminal law and it has become the set text in many leading universities. Additionally, the book is used as an important point of reference in academic writing and postgraduate research in England and abroad. Simester and Sullivan's Criminal Law has been cited by appellate courts throughout the world. Review of Previous Edition: '... undoubtedly a first-rate companion for any undergraduate or post-graduate law course. Since attaining international recognition and citation in appellate courts worldwide, the security of the text's position as a point of academic reference remains as steadfast as ever.' John Taggart, Criminal Law Review

to engage further with the subject a Companion Website to provide regular updates to the book. Recent decisions of note that are extracted and analysed include R v Kennedy (manslaughter based on supply of heroin); Attorney General for Jersey v Holley (provocation); R v Mark and R v Willoughby (elements of killing by gross negligence); R v Barnes (consent as a defence to sporting injuries); Attorney General's Reference (No 3 of 2004) (accessorial liability) and R v Hatton (intoxicated mistake in self defence cases). Consideration is also given to the likely changes to the law relating to corporate manslaughter, at the time of writing contained in the Corporate Manslaughter and Corporate Homicide Bill currently before Parliament. Two major law reform publications are extensively extracted and contextualised in this 4th edition - the Law Commission's report on Murder, Manslaughter and Infanticide (Law Com No 304) and the Law Commission's Report on Inchoate Liability for Assisting and Encouraging Crime (Law Com No 300). This book is an invaluable reference for students on undergraduate or CPE/PG Diploma in Law criminal law courses, particularly those studying independently or on distance learning programmes.

Doing Justice, Doing Gender-Susan Ehrlich Martin 2006-10-27 Doing Justice, Doing Gender: Women in Legal and Criminal Justice Occupations is a highly readable, sociologically grounded analysis of women working in traditionally male dominant justice occupations of law, policing, and corrections. This Second Edition represents not only a thorough update of research on women in these fields, but a careful reconsideration of changes in justice organizations and occupations and their impact on women's justice work roles over the past 40 years.

Criminal Law Theory-Stephen Shute 2002 Concentrating upon those doctrines that make up the general part of the criminal law this

collection of essays by leading American and British legal experts sheds theoretical light on key issues of contemporary relevance.

Expert evidence in criminal proceedings in England and Wales-Great Britain: Law Commission 2011-03-22 This project addressed the admissibility of expert evidence in criminal proceedings in England and Wales. Currently, too much expert opinion evidence is admitted without adequate scrutiny because no clear test is being applied to determine whether the evidence is sufficiently reliable to be admitted. Juries may therefore be reaching conclusions on the basis of unreliable evidence, as confirmed by a number of miscarriages of justice in recent years. Following consultation on a discussion paper (LCCP 190, 2009, ISBN 9780118404655) the Commission recommends that there should be a new reliability-based admissibility test for expert evidence in criminal proceedings. The test would not need to be applied routinely or unnecessarily, but it would be applied in appropriate cases and it would result in the exclusion of unreliable expert opinion evidence. Under the test, expert opinion evidence would not be admitted unless it was adjudged to be sufficiently reliable to go before a jury. The draft Criminal Evidence (Experts) Bill published with the report (as Appendix A) sets out the admissibility test and also provides the guidance judges would need when applying the test, setting out the key reasons why an expert's opinion evidence might be unreliable. The Bill also codifies (with slight modifications) the uncontroversial aspects of the present law, so that all the admissibility requirements for expert evidence would be set out in a single Act of Parliament and carry equal authority.

The Crime of Conspiracy in International Criminal Law-Juliet R. Amenge Okoth 2014-05-13 This book looks at the relevance of conspiracy in international criminal law. It establishes that conspiracy was introduced into international criminal law for purposes of prevention and to combat the collective nature of participation in commission of international crimes. Its use as a tool of accountability has, however, been affected by conflicting conceptual perceptions of conspiracy from common law and civil law countries. This conflict is displayed in the decisions on conspiracy by the international criminal tribunals, and finally culminates into the

exclusion of punishment of conspiracy in the Rome Statute. It is questionable whether this latest development on the law of conspiracy was a prudent decision. While the function of conspiracy as a mode of liability is satisfactorily covered by the modes of participation in the Rome Statute, its function as a purely inchoate crime used to punish incomplete crimes is missing. This book creates a case for inclusion in the Rome Statute, punishment of conspiracies involving international crimes that do not extend beyond the conceptual stage, to reinforce the Statute's purpose of prevention. The conspiracy concept proposed is one that reflects the characteristics acceptable under both common law and civil law systems.

Women and the Law-Susan Atkins 1984

The International Criminal Court-William A. Schabas 2017-01-19 Established as one of the main sources for the study of the Rome Statute of the International Criminal Court, this volume provides an article-by-article analysis of the Statute; the detailed analysis draws upon relevant case law from the Court itself, as well as from other international and national criminal tribunals, academic commentary, and related instruments such as the Elements of Crimes, the Rules of Procedure and Evidence, and the Relationship Agreement with the United Nations. Each of the 128 articles is accompanied by an overview of the drafting history as well as a bibliography of academic literature relevant to the provision. Written by a single author, the Commentary avoids duplication and inconsistency, providing a comprehensive presentation to assist those who must understand, interpret, and apply the complex provisions of the Rome Statute. This volume has been well-received in the academic community and has become a trusted reference for those who work at the Court, even judges. The fully updated second edition of The International Criminal Court incorporates new developments in the law, including discussions of recent judicial activity and the amendments to the Rome Statute adopted at the Kampala conference.

A Digest of the Laws of England-Sir John Comyns 1822

A History of Water Rights at Common Law-Joshua Getzler 2004 Water resources were central to England's precocious economic development in the thirteenth and sixteenth centuries, and then again in the industrial, transport, and urban revolutions of the late eighteenth and early nineteenth centuries. Each of these periods saw a great deal of legal conflict over water rights, often between domestic, agricultural, and manufacturing interests competing for access to flowing water. From 1750 the common-law courts developed a large but unstable body of legal doctrine, specifying strong property rights in flowing water attached to riparian possession, and also limited rights to surface and underground waters. The new water doctrines were built from older concepts of common goods and the natural rights of ownership, deriving from Roman and Civilian law, together with the English sources of Bracton

and Blackstone. Water law is one of the most Romanesque parts of English law, demonstrating the extent to which Common and Civilian law have commingled. Water law stands as a refutation of the still-common belief that English and European law parted ways irreversibly in the twelfth century. Getzler also describes the economic as well as the legal history of water use from early times, and examines the classical problem of the relationship between law and economic development. He suggests that water law was shaped both by the impact of technological innovations and by economic ideology, but above all by legalism.

Hearsay Evidence in Criminal Proceedings-J

R Spencer 2014-11-01 The Criminal Justice Act 2003 re-wrote the hearsay evidence rule for the purpose of criminal proceedings, enacting the recommendations of the Law Commission together with some proposals from the Auld Review. In 2008, Professor Spencer wrote a book explaining the new law, intended for

practitioners as well as academics. Following the style of his earlier book about the new law on bad character evidence, the core of the hearsay book was a section-by-section commentary on the relevant provisions of the Act, discussing the case law that had interpreted them. Since the appearance of the first edition, the new law on hearsay evidence has been the subject of a spectacular exchange between the UK Supreme Court and the European Court of Human Rights, the effects of which the Court of Appeal has interpreted in several leading cases. In this new edition, the commentary is revised to take account of these developments. As in the first edition, the commentary is preceded by chapters on the history of the hearsay rule, and the requirements of Article 6(3)(d) of the European Convention on Human Rights. It is followed by an appendix containing the text of the statutory provisions and a selection of the leading cases.
